Properties	<p>Upper: Polyurethane</p> <p>Lining: Brushed Nylon Polyurethane Coated.</p> <p>Sole: PU/PU</p>
------------	--

Areas of Application	<p>This product is perfect for use in any industry where water is present. Food, Agriculture, Fisheries and Wet Rooms are just a few areas where this product would be ideal. Polyurethane boots are significantly lighter than PVC equivalents and because of this they are more comfortable and less tiring to wear. Enhanced thermal properties provide good insulation against heat and cold. The durability of Polyurethane is expected to be 2 to 3 times longer than PVC. Polyurethane as a material has excellent flex, cut and abrasion resistant properties.</p>
